### INTEGRA | VoIP Tail

Integra's VoIP Tail is a special service designed to deliver high quality VoIP (Voice over Internet Protocol) telephone & video calls over the Internet. The line is Naked which means you will not need to pay for expensive line rental. Integra's VoIP Tail has QoS (Quality of Service) ensuring your calls have priority from your business all the way through our private network. The VoIP tail has latency and jitter control to further enhance call quality.

### INTEGRA | Broadband ADSL 2+

ADSL2+ Broadband is added to our VoIP Tail delivering a rich Internet experience for your business. Use the Internet when you want with no on/off peak periods. Total peace of mind with no excess usage charges on any Integra plan. Static IP address also included.

Terms & Conditions Apply. Prices are subject to change without notice. An active Internet connection is required for VoIP service. Service not available in all areas. The actual speed you experience depends on a number of factors, including your equipment, the quality and location of your line, how far your connection is from the local telephone exchange, the applications you are using, the capacity and speed of our systems, the systems of our suppliers, and the Internet generally. For these reasons, you should not expect your actual speed to be at or near the theoretical maximum. A critical information summary (CIS) about this service can be found on our website.
